SONIK SK4TR FLY ROD Half Price!

A new, upgraded version of the popular SK4XT rods with an improved specification still at an attractive price point. The four piece crisp, middle to tip action blanks adapt to a wide range of casting styles. With a forgiving tip for playing fish without hook pulls, these rods are great all-rounders, suitable for river or lake.

- Smooth, middle to tip action with a fast recovery.
- High grade Portuguese cork handles.
- Burl rosewood reel spacer with ventilated aluminium skeleton anodised in champagne gold colour.

SONIK SK LITE FLY ROD Half Price!

An exceptional range of light-line river fly rods ranging from 8' #3 to 10' #4, that will appeal to the most discerning fly angler. The ultra-lightweight blanks have smooth, middle to tip actions with a fast recovery and most importantly, provide great balance in the hand. With a subtle matt olive blank for stealth, complimented with matching tyings and copper tipping, the slim, half-wells cork handles are burl rosewood trimmed. When combined with the incredible detail of the mixed burl hardwood reel spacer and inscribed reel seat, the effect is striking and unique.

GU2427	14FT 9	#10-11	4	£329.99	£220.00

This popular, fast action three piece rod range will now cover even the lightest fishing situations. We made some light line weight versions which are great for Czech style nymphing and for places where you need long, drag free presentations. The heavier line weight rods also got a power kick as we modified them a bit too. They are real canons for those who really need to cast further.

VISION ATOM RODS

Lightweight with a silky smooth medium fast action offering great performance with outstanding value for money. Metallic grey blanks are finished with wood insert or full Aluminium reel seats and quality cork grips.

SHIMANO EXAGE FRONT DRAG REEL

Shimano have released the front drag version of their famous Exage reel. The reel is visually fantastic with a stunning metallic, platinum and gold finish that can easily be recognized on the bank.

The reel has 5 steel ball bearings allowing for a super smooth retrieve. The reel uses a multi-disk front drag system for a smooth progressive performance, this in itself is ideal for building an anglers confidence when playing a fish.

For optimum casting performance the Cold Forged Aluminium Spool has AR-C line management and Varispeed line lay which prevents fine mono and braid from bedding in under pressure. The reels come with a spare spool.

HARDY MACH SALMON 65FT

The 65 foot head design of the Mach 65 bridges the gap between extreme distance and fishing practicality. You will find the 65 is long enough to generate a large 'D' loop during the longest of Spey casts yet short enough to control when you are wading deep. The 65, in short, is the perfect solution for the all round, big river angler. Big rivers are the natural home for the 65. The 'liquid slick' lubrication system improves line shoot, repels dirt and lets you fish with control and accuracy at big distances with big flies.

• 65 foot head length for maximum distance and effective fishing
• Twin colour design
• Accurate sink rates and high buoyancy floaters
• Welded tip loop for added strength
• 120 feet overall length
• AFTM Spey scale compliant
• 'Liquid slick' lubrication system.

RIO AFS SHOOTING HEADS (HEADS ONLY)

The Advanced Flight Spey (AFS) lines are Scandinavian style Shooting Heads. These heads have a long front taper that ensures the softest of presentation and a design that loads rod up easily, resulting in extremely effortless casts of prodigious distances. They are a joy to cast and incredibly easy to get the feel of. For the very best in presentation and control, attach one of RIO's Spey VersiLeaders to the front end. These leaders are offered in 6 ft, 10 ft and 15 ft lengths and have been designed specifically to complement the AFS heads. Attach one of RIO's highly acclaimed shooting lines to the back end.

StrikePro REACTION JERK BAITS

Strike Pro's fantastic Reaction Bait range blur the edges between lure and bait thanks to their biodegradable, fish friendly formulation. Reaction baits can be rigged up and fished like any rubber lure, and are pre-loaded with pheromones and flavours to attract fish, and will decompose in 48-72 hours if left in the water, harmlessly passing into the aquatic environment. Fish can even eat them!
